### MCON 451-Campaign Dashboard

For this site I wished to create a site for a political campaign company. The goal was to track the campaign turnouts for each candidate and donations to the campaign. In addition, the site can be used to manually add donations and track all previous donations by candidate, event, donor and date.

The login page is titled "Login" and features a central white box with a dark blue, starry background. Inside the box, there are two input fields: "Username..." and "Password...". Below the password field is a checkbox labeled "REMEMBER ME". At the bottom of the box is a blue button with a white user icon and the text "LOGIN".

Here is the login page which is what users see upon initially logging in. Using their username and password they can log in to the dashboard. Furthermore, users can choose to click the remember me box and their login will be saved and they will not have to login each time.

Here is my main dashboard.

The campaign turnout pie chart represents each candidate and the turnout for their most recent event. The campaign donations pie chart represent the sum of the donations to each candidate. The monthly donations bar chart represents the total donations per month to the candidates.

SAVE DONATION

Here is the page that allows users to manually save donations. The user selects the event they wish to donate to, the donation amount and the date. The user then can save the details of the donation and it will update across the dashboard.

This page is the calendar page which displays the date of donation's generated. It displays which candidate generated a donation and the amount.

This is the profile pop up which shows when the profile icon is clicked on. The pop up displays the current user, their email address, User ID, profile type and the last time they refreshed.
